

Abortion Safety Checklist

About the doctor

Is the doctor a licensed physician and board-certified OBGYN?

What is the doctor's rating at www.healthgrade.com?

Does the doctor have admitting privileges at my local hospital in case of complications?

About the cost

Can I change my mind at any time and get a full refund?

Is there a charge for a sonogram in case of a miscarriage?

What to expect before the abortion

Does the clinic provide STD screening and treatment before the abortion procedure?

Will I get a blood test for the RH factor? If so, will I be treated if I am RH negative?

What to expect as part of the abortion

What is the clinic's complication rate?

What kind of pain medication is provided? What is the additional cost?

What to expect after the abortion

Does the clinic provide a reversal if you change your mind after the first dose of the abortion pill?

What follow-up care is provided and what is the additional cost?

Your Rights

- You and only you, can decide whether or not to have an abortion.
- You have a right to look at printed information that explains fetal development and the abortion procedure and risks.
- You are required to have a sonogram prior to the abortion.
- You have the right to change your mind about the procedure even while at the clinic.
- The father of your baby is required to help support your child, even if he wants you to have an abortion.
- If you are a minor, 17 years or younger, you must have the consent of your parent, managing conservator or legal guardian, or a court order to have an abortion, unless you have a life-threatening medical emergency certified by a physician.

We want you to have the confidence you need to make an educated decision. Real Options is available to provide an options assessment and free sonogram. Visit www.realoptionstx.com or call [\(972\)424-4357](tel:(972)424-4357) to schedule an appointment.
